Dear Malibu members and friends,

As already notified, we are organising a Fly-in to the delightful Baltic Sea Coast.

We are very pleased to have been invited by the DAHER-SOCATA , represented by the Rheinland Air Service GmbH (RAS) to a reception at the Barth airfield with the chance to view the TBM850 and the participation of our lecturer John Mariani, Italian-American Engineer in Aircraft Construction. He played a significant role in the early 1980s as an employee at Piper in the development of the Malibu.

Our beach Hotel Fischland, nestling in beautiful dunes between the white Baltic beaches and the wildly romantic vegetation of the coastal forest, doesn't offer just excellent service and a wide variety of sport and wellness activities but also culinary delights to convince great and lesser gourmets alike.

On arrival there will be a Champagne Reception with regional delicacies provided by RAS at the Barth airfield. Another highlight will be our gala Gourmet-Dinner in the Baltic Sea Lounge with a breathtaking view over the wonderful Baltic landscape and jazzy background music.

For those participants who will not be attending the Safety Seminar we will be providing an interesting program. On Saturday there will be a Bike Tour through the fascinating coastal forest and heathland to the Bodden. From there we will sail in traditional "Zeesen boats" across the Saaler Bodden. Then we will enjoy fish specialities and regional drink at the harbour. In the evening there will be the particular highlight of our romantic beach barbecue.

All PA46 enthusiasts and would-be enthusiasts are more than welcome to join us in our program and take part in our Safety Seminar. You will find our program and seminar agenda attached. The Safety Seminar is free for our members!

Dear Members and friends of the PA46, you are cordially invited. The complete program and registration fax are attached. The hotel rooms will be allocated on a first-come, first-served basis. That means, the first to register get the best rooms!

Closing date for registration is 31st March, 2012.

I look forward to receiving your registration!

With best wishes

Wilhelm Schröer
